TaxGenie AI: Your Personal Tax Wizard

AI-powered tax optimization that transforms your Form 16 into a complete financial plan in under 60 seconds

Made with GAMMA

The ₹15,000 Problem Most Indians Don't Know They Have

Every tax season, millions of salaried Indians overpay taxes, miss legitimate deductions, and make uninformed investment decisions—simply because they lack accessible, affordable financial guidance.

95% of Indians don't have a financial plan. Financial advisors charge ₹25,000+ annually and serve only high-net-worth individuals, leaving the average earner to navigate complex tax laws alone.

Specific Pain Points in Your Tax Journey

Form 16 Confusion

3-page document most people cannot read or understand properly

Old vs New Regime

Decision made on gut feeling rather than mathematical calculation

Missed Deductions

Average Indian misses ₹15,000-₹40,000 in legitimate deductions annually

Random Investments

Tax-saving picks based on what friends suggest, not personal risk profile

Costly Consultations

CA consultations cost ₹2,000-₹5,000 for basic tax planning

Made with GAMMA

Introducing TaxGenie AI

Meet Priya: The Transformation Story

Before TaxGenie

28-year-old software developer earning ₹12 LPA

- Paid ₹1,20,000 in taxes
- Picked New Tax Regime randomly
- Chose ELSS funds without analysis
- Spent 3 days waiting for CA consultation

After TaxGenie

Saved ₹23,000 instantly

- Switched to Old Regime mathematically
- Claimed HRA deductions properly
- Optimized ₹46,800 ELSS investment
- Complete plan in 47 seconds

TaxGenie found Priya's ₹23,000 savings in 47 seconds. A CA consultation would charge ₹3,000 and take 3 days.
